

TWINKLY PLUS

dots

PRODUCT TITLE

Twinkly Plus Dots – Addressable Flexible LED Rugged Light String with 250 RGBW (16 Million Colors + Warm White) LEDs. 12.5m / 41ft. Clear Wire. Indoor and Outdoor Smart Lighting Decoration.

PRODUCT DESCRIPTION

Twinkly Plus brings professional-level lighting effects to your fingertips with smart, string lights with mini LEDs that shine with extraordinary brightness for personalized animations in over 16 million colors. Easily map lights using your smartphone camera and the app, instantly unlocking infinite color gradients, effects and grouping options that link tens of thousands of LEDs. A powerfully resistant, weatherproof design transforms any large outdoor or indoor setting into a creative custom wonderland season after season.

KEY PRODUCT FEATURES

Professional-grade Lighting: Easily create spectacular, pro-grade installations with this flexible string of 250 addressable RGB-W LEDs that connects to an extendable, 4-port controller supporting up to 1000 LEDs. Ethernet and wifi connectivity provide pro-level speed, convenience and stability. Dots Plus guarantees extraordinary vibrancy and unlimited personalization in over 16 million colors, including a warm white tone.

Easy-to-use: Twinkly takes the guesswork out of pro-lighting with patented technology that uses your smartphone camera to map the position of each LED. Choose from presets, customize or design your own animations and set timers directly from the user-friendly app.

Ultra-durable Materials: Made to last, the IP65 certified design is 100% weatherproof and resists wear throughout extended use. The cable thickness is greater than that of a traditional string and the LEDs feature an external capsule for superior durability.

Linkable Light Ecosystem: Group seamlessly with other Twinkly Plus controllers, or sync with your existing Twinkly lights for unified displays of up to tens of thousands of LEDs. Use with Twinkly Music to orchestrate musical light shows. Currently available in the Plus family are Strings, Icicles, Curtains, Dots & S14.

HIGHLIGHTS

- Create the ultimate lighting decorations with smart flexible LED lights Twinkly Plus Dots
- 250 Addressable RGB+W LEDs – 16 million colors + warm white
